

Amendments to the Specification

Please amend the specification as follows.

On page 4, please replace the first paragraph at lines 1-5 with the following:

--A large tank half shell 4 with receptacle 5 for a looped (or bracket) handle and inner wall 12 of the handle are injection-molded in one piece. Handle 1 has no welding seams along the circumference of its opening. A small tank half shell (~~not shown~~) 23 can be welded onto open tank 6 of large tank half shell 4. Welding seam 7 runs completely adjacent to handle 1 and opposite receptacle 5 for the looped handle. --
